

AGENDA ITEM 8: **Drought Update and Delta Water Conditions**

Prepared by: Erik Vink

Presented by: Paul Marshall, DWR Bay-Delta Office

Requested Action: **Receive report on Drought Update and Delta Water Conditions**

Background: As the beginning of the spring water season approaches, DWR is evaluating storage conditions in State reservoirs and projecting operational needs should the State continue in drought conditions.

Paul Marshall, DWR Chief of the Bay-Delta Office, will provide a briefing on DWR’s current projections for the upcoming season and the Department’s plans to address water quality conditions in the Bay-Delta.
